

KWIEC PROJECT REVIEW

In accordance with KRS 42.738 which states – "The Kentucky Wireless Interoperability Executive Committee shall serve as the advisory body for all wireless communications strategies presented by agencies of the Commonwealth and local governments. All state agencies in the Commonwealth shall present all project plans for primary wireless public safety voice or data communications systems for review and recommendation by the committee, and the committee shall forward the plans to the executive director for final approval. Local government entities shall present project plans for primary wireless public safety voice or data communications systems for review and recommendation by the Kentucky Wireless Interoperability Executive Committee. All primary wireless voice and data communications projects will be submitted to the KWIEC for review.

The Kentucky Wireless Interoperability Executive Committee (KWIEC) has charged the KWIEC Facilitator to review all wireless communications projects submitted and to determine which projects are exempt, require review by the Facilitator or Public Safety Working Group, or require detailed review by the KWIEC.

PART I: PROJECT INFORMATION

PROJECT NUMBER: 2009-017

DATE REVIEWED: June 12, 2009

AGENCY: Radcliff Police Department

PROJECT TITLE: Radio Upgrade Project

PART II: PROJECT REVIEW AND CONCURANCE

The project was reviewed in accordance with KRS 42.738 and applicable KWIEC policies and directives and falls into the category marked below. When signed, this form indicates the applicant has met the requirements of the KWIEC review process.

EXEMPT

☐

The Project is not considered a "Primary" communications Voice or Data system and does not require review IAW KRS 42.738 and is therefore EXEMPT.

CONCUR

☐

The Project uses an existing State-Level system or Network which has been previously reviewed and approved by the KWIEC (examples include - Mobile Data; Mutual Aid; KyWINS Messenger; etcetera).

☐

The Project is a simple augmentation or upgrade to an existing and approved system (examples include - acquire or upgrade portable or mobile radios; upgrade/replace exiting repeaters & antenna systems).

☒

The Project expands on an existing and approved communications network (examples include - add a new repeater site, base station, tower, etcetera). FCC and/or FAA approval is typically required and is the responsibility of the submitting agency.

A copy of this form should be kept on file for audit purposes.

PART III: COMMENTS FROM REVIEW

Ensure FCC and FAA coordination is completed.

PART IV: AUTHORIZATION

Charles R. (Chuck) Miller
KWIEC Facilitator
